

Ideation Phase

Brainstorm & Idea Prioritization Template

Date	15 October 2022
Team ID	PNT2022TMID28669
Project Name	Visualizing and Predicting Heart Diseases with an Interactive Dash Board

Brainstorm & Idea Prioritization Template:

Brainstorming provides a free and open environment that encourages everyone within a team to participate in the creative thinking process that leads to problem solving. Prioritizing volume over value, out-of-the-box ideas are welcome and built upon, and all participants are encouraged to collaborate, helping each other develop a rich amount of creative solutions. Use this template in your own brainstorming sessions so your team can unleash their imagination and start shaping concepts even if you're not sitting in the same room.

Step-1: Team Gathering, Collaboration and Select the Problem Statement

Visualizing and Predicting Heart Diseases with an Interactive Dash Board

Brainstorm & idea prioritization

Use this template in your own brainstorming sessions so your team can unleash their imagination and start shaping concepts even if you're not sitting in the same room.

⌚ 10 minutes to prepare
🕒 1 hour to collaborate
👥 2-8 people recommended

Before you collaborate

A little bit of preparation goes a long way with this session. Here's what you need to do to get going.

⌚ 10 minutes

- A Team gathering**
Define who should participate in the session and send an invite. Share relevant information or pre-work ahead.
- B Set the goal**
Think about the problem you'll be focusing on solving in the brainstorming session.
- C Learn how to use the facilitation tools**
Use the Facilitation Superpowers to run a happy and productive session.

1 Define your problem statement

What problem are you trying to solve? Frame your problem as a How Might We statement. This will be the focus of your brainstorm.

⌚ 5 minutes

Problem
To build a web application that is powered with machine learning for detecting Heart disease

Key rules of brainstorming
To run a smooth and productive session

🗣️ Stay in topic.

🕒 Defer judgment.

🗣️ Go for volume.

💡 Encourage wild ideas.

👂 Listen to others.

👁️ If possible, be visual.

Need some inspiration?

Step-2: Brainstorm, Idea Listing and Grouping

2

Brainstorm

Write down any ideas that come to mind that address your problem statement.

10 minutes

TP
You can select a sticky note and hit the pencil icon to start drawing!

Vignesh Kumar R (Team Leader)

Predicting the disease behavior with null deviation
Data processing at periodic intervals
Simple usage of the application
It unleashes the future of advancing the trends
It is powered with web application block

Vignesh Balaji A

Linearity in the prediction
It captures the real time view of the solution
It is very crucial in safety process of the application
It stimulates the nature of the application features

Sriram E

It is powered with machine learning for diagnosis process
It is equipped with latest ML techniques
Good impression of validating the user request
I suggest next solutions at the good time consistently from
It ensures the privacy in data of the users
Allows the users to access the data with ease

Suresh G

Automation in performing the right task
It rewards the patients with rewards at each time of web visit
Processing the request of the users using automated task
Confident results for first time users
It enhances the user expectations and improves further work

3

Group Ideas

Take turns sharing your ideas while clustering similar or related notes as you go. Once all sticky notes have been grouped, give each cluster a sentence-like label. If a cluster is bigger than six sticky notes, try and see if you can break it up into smaller sub-groups.

20 minutes

Accuracy and user assistant

Predicting the disease behavior with null deviation
It is powered with machine learning for diagnosis process
It suggests right solution at good time consistently from
Random guidance of web features in the data

Privacy handler

Good impression of validating the user request
It ensures the privacy in data of the users
Confident results for first time users
Automation in performing the right task

TP
Add customizable tags to sticky notes to make it easier to find, browse, organize, and categorize important ideas as themes within your mind!

Positive result

It rewards the patients with rewards at each time of web visit
Processing the request of the users using automated task
It ensures the privacy in data of the users
It enhances the user expectations and improves further work

Future tech usage

It is equipped with latest ML techniques
Linearity in prediction
Data processing at periodic intervals
It is powered with web application block

Method data

It unleashes the future of advancing the trends
It is powered with web application algorithms
Simple usage of application
Simple web design requires ease of data extraction

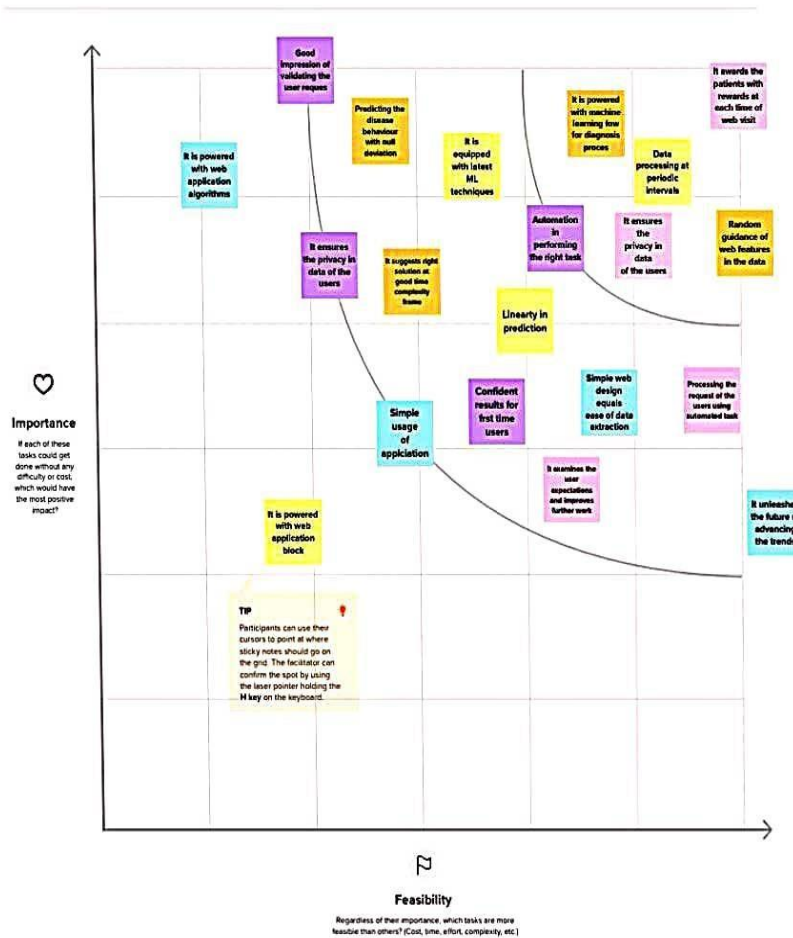

Step-3: Idea Prioritization

4

Prioritize

Your team should all be on the same page about what's important moving forward. Place your ideas on this grid to determine which ideas are important and which are feasible.

⌚ 20 minutes

→

After you collaborate

You can export the mural as an image or pdf to share with members of your company who might find it helpful.

Quick add-ons

- A** **Share the mural**
Share a view link to the mural with stakeholders to keep them in the loop about the outcomes of the session.
- B** **Export the mural**
Export a copy of the mural as a PNG or PDF to attach to emails, include in slides, or save in your drive.

Keep moving forward

- Strategy blueprint**
Define the components of a new idea or strategy.
Open the template →
- Customer experience journey map**
Understand customer needs, motivations, and obstacles for an experience.
Open the template →
- Strengths, weaknesses, opportunities & threats**
Identify strengths, weaknesses, opportunities, and threats (SWOT) to develop a plan.
